

BAZIL FAROOQ

WEB DEVELOPER

Faisalabad, Pakistan | +923 0468 10547 | mianbazil21@gmail.com

PROFILE SUMMARY

As a PHP Web developer with 1+ year of experience, I have a proven track record of delivering high-quality web applications that meet business objectives. My expertise includes designing, developing, and maintaining web applications using PHP, MySQL, HTML, CSS, JavaScript, and jQuery. I am well-versed in MVC frameworks like Laravel and CodeIgniter and have experience working with CMSs like HRM and Accounting. I am committed to staying up-to-date with the latest technologies and best practices in web development to ensure that my clients receive the most innovative and efficient solutions. With strong problem-solving skills and excellent communication abilities, I am able to work effectively in teams and contribute to a positive team environment.

WORK EXPERIENCE

PHP DEVELOPER

May, 2023 - Current

Utecho, Faisalabad

- Responsible for handling various projects using core PHP, Socket.io and MySQL. My main project has been the **VMS (Vehicle Management System)**, which has been a significant part of my experience. As part of my role, I have created new modules for the VMS system and have also been responsible for fixing any bugs that arise.
- I have worked on various features of the system, including user management, vehicle tracking, and maintenance scheduling. Additionally, I have integrated third-party APIs Like Leaflet, Open Route, Google Maps and FourSquare to enhance the system's capabilities.
- I have also collaborated with a team of developers to ensure that the VMS system meets the project requirements and timelines. In this process, I have gained valuable experience in project management, code review, and version control.

SENIOR PHP DEVELOPER

October, 2022 - April, 2023

Evision Techno Services, Islamabad

- During my time at Evision Techno Services as a Senior PHP Developer, I was responsible for a range of tasks related to the development of software applications. I utilized my expertise in the CodeIgniter framework to develop software applications for **Housing Societies, HRM, ERP, CMS, and accounting software.**
 - Writing manuals for the LPG ERP system, which involved providing detailed instructions on how to use the system effectively.
 - My role as a Senior PHP Developer also involved utilizing my design skills using Canva. I was responsible for editing designs and ensuring that they met the client's requirements. My experience with Canva allowed me to effectively create designs that were visually appealing and functional for the end-users.
 - One of my main projects during my time was the Islamabad Based Housing Society software application. This involved developing a complex software application that streamlined the management of Housing Societies.
-
