

Bazil Farooq

Senior PHP & Node.js/Nest JS Developer

03046810547 | mianbazil21@gmail.com | Pakistani | 12-02-2000 | Muhammad Farooq | Single

ABOUT ME

Experienced Senior PHP Developer with extensive expertise in backend development using PHP and modern JavaScript frameworks, particularly Node.js and NestJS. Proficient in building robust, scalable applications with MySQL as the database backend. Strong knowledge of socket programming, enabling real-time communication and highly responsive systems. Adept at architecting, developing, and optimizing complex web applications, with a focus on delivering high-quality code and seamless user experiences. Highly collaborative, with a track record of working effectively in cross-functional teams to deliver successful projects.

OBJECTIVE

I'm looking to bring my experience as a Senior PHP Developer and Node.js/NestJS expert to a dynamic team where I can help create innovative web applications. I'm passionate about building scalable, efficient solutions, particularly those involving MySQL and real-time socket communication. My goal is to contribute to projects that make a real difference, while continuing to grow my skills and take on new challenges.

EDUCATION

Government College University of Faisalabad

Bachelors of Computer Science

2018 - 2024

Grade - A

Faisalabad

Superior Group of College Faisalabad

Intermediate of Computer Science

2016 - 2018

Grade - A

Faisalabad

PROFESSIONAL EXPERIENCE

Senior PHP Developer

Evision Techno Service

2022 - 2022

Islamabad

I developed software applications using the CodeIgniter framework, focusing on a variety of solutions such as Housing Societies, HRM, ERP, CMS, and accounting software. I also wrote comprehensive manuals for an LPG ERP system. My work extended beyond development, as I utilized my design skills with Canva to edit and tailor content to meet client requirements. One of my main projects was the creation of software for an Islamabad-based housing society, which greatly streamlined their management processes.

Web Courses Instructor

Evision Techno Service

2022 - 2022

Islamabad

Teaching and guiding students in various aspects of web development, including front-end and back-end technologies, programming languages, frameworks, and best practices

Senior PHP Developer

Utecho

2023 - Present

Faisalabad

I handled various projects using core PHP, Socket.io, and MySQL, primarily focusing on the Vehicle Management System (VMS). My contributions to VMS included creating new modules, fixing bugs, and working on user management, vehicle tracking, and maintenance scheduling. I also integrated third-party APIs such as Leaflet, Open Route, Google Maps, and FourSquare to enhance the system's functionality. Throughout this process, I collaborated closely with a team of developers to meet project requirements and timelines. Additionally, I gained valuable experience in project management, code review, and version control.

PROJECTS

Vehicle Management System

iVMS Vehicle Tracking

Developer

StartDate : 2023-04-01

The Vehicle Management System (VMS) is a comprehensive solution designed to streamline the management and tracking of vehicles. It includes features for user management, vehicle tracking, and maintenance scheduling, ensuring efficient fleet operations. The system also integrates third-party APIs like Leaflet, Open Route, Google Maps, and FourSquare to enhance its functionality, providing real-time location tracking, optimized routing, and detailed map interactions. VMS is built to improve operational efficiency, reduce downtime, and ensure vehicles are maintained and utilized effectively.

Teals

Teals

Developer

StartDate : 2024-05-01 EndDate : 2024-08-01

Teals is a dynamic platform connecting customers and merchants through exclusive coupons and deals. Customers can explore and purchase a variety of coupons to save on their favorite products and services. Merchants can create, manage, and sell different types of coupons, offering enticing deals to attract more customers. Teals simplifies the process of discovering and redeeming discounts, making it a go-to destination for savings.

Rafia Clothing Store

Rafia US (Online Clothing Store)

Developer

StartDate : 2022-11-01 EndDate : 2023-03-03

At Rafia.us store, we believe that fashion should be accessible to everyone, which is why we prioritize affordability without compromising on quality. With regular updates and new arrivals, there's always something fresh and exciting to discover.
